

# METASPIRE HELPS HEALTHCARE ORGANIZATIONS REMAIN COMPETITIVE AND streamline operations

## IDENTIFY&ANALYZE > areas of opportunity

*Metaspire helps healthcare organizations seek out and employ the best strategies to close performance gaps and efficiently manage operations for long-term financial viability.*

An understanding of today's healthcare business challenges and strengths makes Metaspire, a strategic management consulting firm, remarkably responsive and effective in helping balance financial, operational, and human resource needs for healthcare organizations and executives who lead them. With an astute awareness of internal political hurdles as well as government regulations, Metaspire strategically deploys its business process analysis, organizational development skills, rigorous analytical capabilities, and creativity for each healthcare client's unique needs.

## IMPLEMENT&SUSTAIN > targeted&transformative improvements

*Metaspire embodies the power to help your organization align strategic initiatives to key objectives and achieve strong operations improvement that can be applied enterprise-wide or to select departments or functional areas.*

- Improved efficiency and effectiveness of operations and compliance activities
- Maximized Human Capital
- Eliminated non-value added work, resulting in optimized resource capabilities
- Increased effectiveness and agility to respond to customer requirements and market challenges
- Aligned processes and resources with the organization's vision, mission and goals
- Empowered intelligence-based decisions that drive profitable growth and measurable results

*Plus Metaspire provides:*

- Industry certification preparation
- Robust Electronic Health Records (EHR) requirements
- Quality improvements made simple
- Employees with the capabilities to sustain quality day to day performance
- Cultural readiness tools and techniques

Whether growth, competitive forces, or other factors necessitate changes within your healthcare organization, consider Metaspire a valued resource to steer your organization in the right direction.

*“Within 4 months, Metaspire’s rapid approach helped develop and integrate a quality method to improve our day to day business functions. One example is linking our business processes engineering to people development needs, career paths and job descriptions to position the People in the Organization for success.”*

– Sandy Kleinberg, Director of Business Process Engineering, Excellus BlueCross BlueShield
